

SolMan Action Packer

Personal Solar Generator

SolMan Action Packer Personal Solar Generator

- ▶ The SolMan Action Packer is a clean, silent and sustainable alternative to the gas generator.
- ▶ The SolMan captures the sun's energy via solar PV panels, stores that energy in a battery bank and converts it via an inverter to regular AC power to be used for all your energy efficient needs.
- ▶ The SolMan Action Packer comes complete, with fully integrated components, ready to be deployed on-site to provide plug and play power.

Features and Specifications

- ☼ **1650 Usable Watt Hours of Battery Storage Capacity** (max watts you can use before recharging)
- ☼ **1200 Watt Inverter/Charger** (max watts you can pull at any one time, with surge protection)
- ☼ **240 Watts Solar PV Inbound** (max watts incoming per hour)
- ☼ **Compact Design** (fits in car trunk, van or truck easily)
- ☼ **Wheel Mounted System** (for portability on the ground)
- ☼ **Hybrid System** (pair with a gas generator for 24/7 off grid power capabilities through inverter/charger ability to fast charge SolMan batteries)

SolMan Action Packer Uses

- ☼ **Off Grid Power** (Supplemental Power, Cabins, RVs and Greenhouses)
- ☼ **Emergency Backup Power** (Blackouts, Natural Disasters and Backup Power)
- ☼ **Event Power** (Booths, Small Stages and PAs)
- ☼ **Temporary Power** (Power for Small Energy Needs On-Location)

The Action Packer runs indoor/outdoor lighting, home electronics, computers, energy efficient appliances, rechargeable tools, and numerous other small to medium items for up to several hours at a time.

Components:

- Two 120 watt solar PV panels, 240 watts total solar input
- Two 115 amp hour sealed deep cycle no maintenance batteries
- 15 amp solar PV charge controller with LED digital readout
- 1200 watt pure sine-wave inverter, with overload, low battery shut-off and two AC duplex plugs
- Master DC breaker and 12 volt DC cigarette lighter plug
- PV plug and 40 foot cord to place panels in the best sun
- External battery charger

SolMan Action Packer Boosted

- Add 115 amp/hr battery (2500 usable watt hours)
- Additional folding PV panel kit for 480 watts solar input
- 30 amp solar charge controller
